BULLETIN BOARD · WINTER 2026-27

Our Snow Day Tracker

Every time Snow Day Radar shows a chance for our district, circle the odds. Next morning, circle what really happened.

Date	Snow Day Radar said (circle)	What happened (circle)	Why? (the reason it gave)	PJs inside out?
	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N
	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N
	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N
	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N
	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N
	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N

	<20 20 30 40 50 60 70 80	School Delay No school Virtual		Y · N

END OF WINTER

For each step, count the nights and how many had no in-person school (No school and Virtual both count). When it said 30%, did that happen about 3 times in 10? Then check the PJs column: did inside-out pajamas really help?
